

Telematics & Cameras

Fleet Management Solutions

World-class connected fleet data and unrestricted cameras, fully integrated in one cloud platform.

These days, businesses need the whole picture of what is happening with their vehicles. The combined power of Geotab telematics and MANTIS unrestricted cameras gives you access to the best data at your fingertips. Monitor and manage your vehicles effectively to help improve safety, reduce accidents, increase efficiency, and save money.

MANTIS powered by Geotab

Lower insurance premiums and fewer accidents due to improved driver behaviour.

Successfully dispute spurious or false claims.

Protect your drivers from threats or aggression

Our monitoring team are on hand to assist you in retrieving your video evidence.

Better fuel efficiency by reducing fuel-wasting driving practices, such as idling.

Lower fleet maintenance costs and less wear-and-tear on vehicles.

Prepare your business and fleet for the transition to EV.

MANTIS[™]
powered by
GEOTAB[®]

Best in class

Unrestricted cameras

The best connectivity
